

Storyboard

Group names: _____

Topic: _____

Directions: Using ideas from your Research Forms and your Skeleton Plan, you will storyboard your Power Point presentation. Each black slide represents a Power Point slide. You will want to fill in the text and visual ideas you intend to put in the final Power Point. The more details you have in your storyboard, the easier it will be for your techie to put together the formal presentation.

<p>Title Slide #1: Includes: topic, group member names and roles, related visual</p>	<p>Slide #2: What is the historical background of this issue? How long has it been a problem? What has happened in the past because of this issue?</p>
<p>Slide #3: Who cares? Why is this issue significant or important? What other nations could be impacted and how?</p>	<p>Slide #4: What are diverse viewpoints on this issue? Who is for it or against it and why?</p>

<p>Slide #5: What is being done now about this issue? Is there local, national, or international action on this issue?</p>	<p>Slide #6: If your group were serving as an advisory board to the government of Pakistan, what would you recommend the government do to remedy or alleviate this issue in a realistic and practical way?</p>
<p>Bibliography/Citations Slide(s): proper format. All sources that your team relied on for research should be included here.</p>
