

# Biomass Blues

Words And Tune By Annie Nelson And Samantha Iverson, Chief Kanim Middle School

Look into the future,  
Tell me what you see.  
We're running out of sources  
For our energy.

What can we do?  
What will we use?

(CHORUS)

Biomass!  
Waste from animals and plants,  
Produces liquid fuel and energy—  
Could be our only chance at a  
Global solution for the energy revolution...  
This is the *Biomass Blues!*

Though there's greenhouse gas emissions,  
It's the same as before—  
But now we're getting something out of it,  
We've opened a door!

Let's save the earth,  
For what it's worth.

(CHORUS)

It's not yet cost efficient,  
Cause we haven't spread the news,  
But the price will go down quickly  
With the more it's being used.

So promising,  
So many things.

(CHORUS)

Advantages to Biomass  
Are plain to see,  
Like getting rid of wastes  
For our economy.

So start today.  
Let's change our ways.

(CHORUS)
