The 2022 World Citizen Essay Contest

Getting Started Guide for Students

Compiled by: Ryan Hauck, Julianna Patterson, and Abigail Dean

The 17 Sustainable Development Goals (SDGs) were agreed upon by the United Nations in 2015 to address global issues by 2030. Their primary purpose is to improve the living standards of everyone and every country alike, with a focus on the longevity or sustainability of these improvements. These ambitious goals are all interconnected, but each focuses on a different field of development. The World Citizen Essay Contest provides the opportunity for youth to examine the SDGs in a meaningful and critical way. The SDGs are relevant to everyone around the world and generates a strong foundation for youth to think about and connect to global issues and the global community.

Tens of millions of people have been forcibly displaced from Syria, Haiti, Afghanistan and other places experiencing climate-, natural-, and human-made disasters. These refugees from around the world are seeking to relocate to the United States and other countries. *In an essay of 1000 thousand words or less, choose a specific context to describe the origins or causes of a crisis that resulted in people becoming refugees, its impact, and what you would recommend as a course of action to address it. A Note on Learning Standards Presented in this Packet:

Three sets of standards have been linked to each of the learning objectives in this packet. The **Washington State K-12 Social Studies Learning Standards** and the accompanying Grade Level Requirements are the social studies standards for WA State.

The College, Career, & Civic Life C3 Framework for Social Studies State Standards are the standards published by the National Council for the Social Studies. Guiding the packet as a whole is the Framework for Global Learning created by the Asia Society and the Council of Chief State School Officers titled *Educating for Global Competence: Preparing Our Youth to Engage the World* (2011).

Cross-objective standards are listed at the beginning of the packet, and content-specific standards can be found after each learning objective.

The standards provided have been selected for relevance, but are not exclusive: many other standards, such as Common Core, may be applicable to the resources and learning objectives identified in this packet. The intention for this packet's organization is to provide educators with an idea of resources available and possible uses for resources. Users should feel free to create their own learning objectives and to select resources according to the specific needs of their classrooms.

Action Against Hunger

<https://www.actionagainsthunger.org/world-hunger-facts-statistics>

Hunger is strongly interconnected with poverty, and it involves interactions among an array of social, political, demographic, and societal factors. People living in poverty frequently face household food insecurity, use inappropriate care practices, and live in unsafe environments that have low access to quality water, sanitation, and hygiene, and inadequate access or availability to health services and education—all of which contribute to hunger.

Fast Facts

More than 700 million people, or 10 percent of the world population, still live in extreme poverty today, struggling to fulfil the most basic needs like health, education, and access to water and sanitation, to name a few. The majority of people living on less than \$1.90 a day live in sub-Saharan Africa. Worldwide, the poverty rate in rural areas is 17.2 per cent—more than three times higher than in urban areas. <https://www.un.org/sustainabledevelopment/sdgs-framework-for-covid-19-recovery/>

[UN Women: The United Nations Entity for Gender Equality and the Empowerment of Women](#)

UN Women is the UN entity dedicated to gender equality and the empowerment of women. Gender inequality is pervasive, with women lacking access to decent employment and facing gender wage gaps. All around the world women and girls are routinely denied access to education and healthcare; they are

under-represented in economic and political decision-making and suffer from violence and discrimination. A global champion for women and girls, UN Women was established to accelerate progress on meeting their needs worldwide.

[UN Women: Women refugees and migrants](#)

Today, around the world, people are on the move. They are migrating to escape poverty, improve their livelihood and opportunities, or escaping conflict and devastation in their own countries. Women represent almost half of the 244 million migrants and half of the 19.6 million refugees worldwide. Refugee and migrant women and girls face specific challenges and protection risks in transit, including family separation, psychosocial stress and trauma, health complications, particularly for pregnant women, physical harm and injury, and risks of exploitation and gender-based violence. Women also often serve as the main caretakers for children and elderly family members, further deepening their need for protection and support.

[UNHCR Report: Women on the Run](#)

Today, we are confronted with a global refugee crisis of unprecedented levels, a crisis that, as shown in this report, deeply affects the Western Hemisphere. No one knows this better than those fleeing epidemic levels of violence, including gender-based violence, in El Salvador, Guatemala, and Honduras.¹ Research conducted over four months found that women face a startling degree of violence that has a devastating impact on their daily lives. With no protection at home, women flee to protect themselves and their children from murder, extortion, and rape. They present a clear need for international protection.

Rebuilding one's life implies more than having a roof over your head and a safe place to sleep. It means reclaiming control of your future. A powerful way to do so is to work for a living. Refugees

UNHCR was established on December 14, 1950 by the UN General Assembly with a three-year mandate to complete its work and then disband. The following year, on July 28, the legal foundation of helping refugees and the basic statute guiding UNHCR's work, the United Nations Convention relating to the Status of Refugees, was adopted. So instead of ending its work after three years, UNHCR has been working ever since to help refugees.

Global compact for migration

The global compact for migration is the first, intergovernmentally negotiated agreement, prepared under the auspices of the United Nations, to cover all dimensions of international migration in a holistic and comprehensive manner.

UNHCR Refugee Facts: What is a refugee?

A refugee is someone who has been forced to flee his or her country because of persecution, war or violence. A refugee has a well-founded fear of persecution for reasons of race, religion, nationality, political opinion or membership in a particular social group. Most likely, they cannot return home or are afraid to do so. War and ethnic, tribal and religious violence are leading causes of refugees fleeing their countries.
